

# Community-Based Instruction Error and Risk Event Assent Form

- My staff explained what I'm going to be working on when I go to \_\_\_\_\_ (community location)
- I think this is a good idea.
- I give my assent to do this.
- I know that I can stop working on this whenever I want.

Date

*Note: Of course, a form like this is not meaningful if the learner is unable to comprehend its purpose. Obtaining assent should be individualized in a meaningful way for each learner. This could include using visuals or also measuring behavioral indicators of assent (also see Chapter 15).*
